X3000 & Z3000 Features/Benefits

Patented Quad Control Handle System™ offers seamless forward / reverse direction, automatic return to neutral, integrated operator presence control and a self-activating parking brake. Intuitive controls for ease of operation!

Patented Dual Deflector Air Flow System™ allows the operator to change the angle of air flow for deeper more efficient cleaning of leaves and debris. Air flow can be shut down on all three discharges for transport.

L.E.D Lights for night operation makes for easy cleanup in daylight savings time.

Joy Stick Deflector Control allows the operator quick and easy control of air flow from left, right or forward directions, eliminating the need to blow in reverse. Simply pull-back on the lever to close flow for transport.

Ergonomic Operator Platform & Thigh Pad Non-skid platform and padded thigh pad offer ease of operation and operator comfort.

Automatic Parking Brake self-activates if the need to briefly step off of the machine arises.

Z3000 Blower Housing design draws air from both sides of the housing for increased air velocity, less noise, and offers more power to push leaves and debris farther so you can clean up faster.

Torsion Mounted Front Axle Assembly handles curbs with ease; like they're not even there!

Front and Rear Tie Downs offer secure tie down points for ease of transport.
